

# THE DAILY APPEAL.

SUNDAY MORNING.—DECEMBER 5, 1858.

**WANTED.**—To buy a negro, aged about ten or twelve years. Apply at competing rooms of Appeal office.

**THE RIVER.**—The river came to a stand yesterday. It is expected to be rising in a day or two.

**THAMES.**—We thank C. S. Gause of the steamers *Northeast* for late New Orleans news.

**MARKET-HOUSE.**—Are we to have that new market-house? Council resolved to build near the Charleston depot. The workmen are to know.

**THE LANDINGS.**—The public landing was in such a dreadful condition yesterday, that some of the regular packets had to lie over until noon.

**SCANCE.**—Men are decidedly scarce at this time. Many are getting married, or the police have released their vigilantes, for there is nothing to be heard of either among, horrible, mysterious.

**THE LAST STABING CASE.**—The negro we mentioned yesterday as having been stabbed on board the *Belfast*, was wounded in the head. His condition was considered critical yesterday.

**DeSOTO COURT.**—The Circuit Court of DeSoto county announces its next session will be at Hindsboro, to-morrow, July 23rd.

**MARSH AND OHIO RAILROAD.**—On and after the 1st of January, the Marsh and Ohio Railroad will run to Bell's Station, ten miles beyond Brownsville, connecting with a line of daily stages, thence to Trenton.

**ASPHALT APPAL.**—The asphalt having the largest circulation, is the medium through which the list of sealed letters at the Memphis Post Office is advertised. It will be found regularly in our Sunday edition. See page 4.

**RAILROAD NEWS.**—There was a meeting of stockholders at Gratiot junction yesterday, which was adjourned to this city, a new schedule will be drawn up by which the trains will run by day instead of by night, as it is said.

**GONE.**—Some months ago we announced that the Hon. Henry S. Foote had become a resident of Memphis, the Wisconsin Whig says he arrived in that city on Wednesday last, and that he is happy in his new home. A. C. Frippe takes the Union States mail, a quiet trip and punctual time may be counted.

**THE ST. LOUIS REPUBLICANS.**—This paper has reached us. It is more than ordinary interest, both from the subjects discussed and from the peculiar method of treating them. The articles on filibustering, State Liberties, and the Origin of Civilization, will excite attention.

**THE WEATHER.**—Yesterday's weather was a subject we are sure we do justice to; a dull, glimmering twilight ill supplied its place. This was occasionally reduced to a mere mist, by a few short showers.

At times it settled down more densely than before. The rain was trying, occasionally it settled down as if it had some spirit in it, which of course rain never has, or tempest people would not swallow it; then it drizzled down the size of pinheads, as lately as yesterday afternoon, with all kinds of small drops falling at all kinds of speed besides, to make up the variety—in winter yesterday was one of the days.

**THE GAZETTE.**—Miss Maggie Mitchell, conductor of the famous *Phoenix* Opera Company's Galette Theatre, last evening, and will leave on the cars-to-night for Nashville. All things considered, her engagement here has been quite successful. To be sure the audiences have been smaller, and the demonstrations of applause less frequent and hearty than on the occasions of her former visits to this city. But she is still reckoned that she was here last winter, when she was here last year, on the contrary, she looks it altogether likely, she has improved. But her former admirers have failed, during the engagement just closed, to discover in her acting those great excellencies which were won to her, we should not charge to her fault, but to the change in the character of the audience.

Her present popularity is due to the fact that she is a most agreeable actress, and Ed. Sheboygan Newhouse, *Theoboyan*, Wis.

**BEAUTIFUL SUBURBAN PROPERTY FOR SALE.**—We have a muddy time coming, we believe the snow says, and that is time come. Observe what streets! The gravel is a relief, where it is not paved, by a dozen feet wide, and the mud half square from Union street half way up to Monroe, and sometimes that seems to recall the mud banks of the Mississippi. We have a muddy time, but the mud season is fully upon us, and very little between that point and Danville.

We have yet to get any rise in the Cumberland, and that river is too low for any kind of navigation, there being but ten inches of water in the lower accounts. The Mississippi is returning, and we believe that this is another great cure effected by our medicine.

We had the pleasure of a winter day from the South. Mr. Allen, Esq., U. S. Senator for the South, District of Illinois, is well.

At 2 o'clock to-morrow afternoon Santa Lucy leaves for New Haven, with McNamee in command, and Folger in the office. As far as I can learn, the Alvin Adams leaves for Louisville, and parts on the Ohio river, and leaves bound for the western country.

**NEW STATE AUTHORITY.**—The new state authority is in full force.

**FOR SALE.**—We have a muddy time coming, we believe the snow says, and that is time come. Observe what streets! The gravel is a relief, where it is not paved, by a dozen feet wide, and the mud half square from Union street half way up to Monroe, and sometimes that seems to recall the mud banks of the Mississippi. We have a muddy time, but the mud season is fully upon us, and very little between that point and Danville.

We have yet to get any rise in the Cumberland, and that river is too low for any kind of navigation, there being but ten inches of water in the lower accounts. The Mississippi is returning, and we believe that this is another great cure effected by our medicine.

We have still to record many wonderful cures effected by this remedy, but another opportunity. One thing you can rely upon, what we have published are from personal communication in our medical journal, and are literally true.

J. QUINTUS.

**NEW STATE AUTHORITY.**—The new state authority is in full force.
